Mobile Battery Operated Totem (Outdoor)

This weatherproof mobile battery operated totem brings a world of new digital advertising opportunities.

- ✓ Battery operated
The high-density built-in lithium battery holds up to 12 hours, plenty of power to satisfy the day.
- ✓ Anti-glare
The anti-glare surface treatment ensures that the images displayed are not distorted.

This board is truly mobile thanks to the built-in 50AH high-density battery to offer over 12 hours of operating autonomy.

With its strong water- and dustproof IP65 casing, high brightness of 700nits and high contrast ratio of 5000:1 and superb picture quality, outdoor performance couldn't be better.

The screens are Full HD, support 24/7/365 continuous operation, have an expected lifetime of over 60.000 hours, a 178* wide viewing angle, resist exposure to high temperatures.

The integrated Android media player enables the screen to be programmed to automatically switch different advertising content. Surround double sound is provided via integrated all-in-one dual stereo surround speakers to provide a true audio-visual experience.
